

— **Safe Line**

All critical elements must be kept inside the blue box.

— **Trim Line**

This is where the product will be cut. We do not recommend having borders due to shifting during the cutting process. This can make borders look uneven.

— **Bleed Zone**

Make sure to extend background images all the way to the edge.

**Size with Bleed: 5.125" x 8.375"**

**Final Size: 5" x 8.25"**

**Resolution: 300 DPI**

**Color Mode: CMYK (coated GRACoL 2006)**
