

Simulates adhesive seal placement

— Safe Line

All critical elements must be kept inside the blue box.

— Trim Line

This is where the product will be cut. We do not recommend having borders due to shifting during the cutting process. This can make borders look uneven.

— Bleed Zone

Make sure to extend background images all the way to the edge.

Size with Bleed: 9.625" x 2.875"
Final Size: 9.5" x 2.75"

Resolution: 300 DPI
Color Mode: CMYK (coated GRACo1 2006)

- ★ Delete this layer before submitting file
- ★ No crop marks

This is the approximate area that will be visible when wrapped around shirt

2.75"

9½" X 2¾" T-SHIRT BAND

Simulates adhesive seal placement

OVERLAP AREA

Keep important text and images away from this area. It will be covered once the band is wrapped around the shirt. If you have a background color or image, it should cover this area.
